230 YARDS CERTIFIED

with 1,265 hours of curriculum viewed

"This is exactly the certification program that I've been searching for!"
- Knox County certifier

"My yard looks beautiful and we are very pleased with how it has come together."
- Williamson County certifier

72 RAIN GARDENS BUILT
and 108 watersheds protected

"I enjoyed so much about this! Many parts have been practices I use in gardening already but having it clearly laid out helped me to find areas to improve."
- Washington County certifier

"This has been a very interesting process! I loved that it is a very attainable goal with long term benefits!"
- Blount County Certifier

183 ACRES IMPROVED
with more native plants

"I would like to become a community resource in sharing the Smart Yard philosophy."
- Madison County certifier

"I've loved transforming from mowing to a habitat, learning from neighbors and having people stop by to chat about the garden."
- Rutherford County certifier
